**OSRTI Management and Analytical Support
SMALL BUSINESS CONTRACT
EP-W-13-016**

TITLE: Mining Sites & Ecological Revitalization
RFO Number: 0016
Estimated LOE: 4,580 hours

TASK ORDER STATEMENT OF WORK

I. BACKGROUND

The mission of EPA is to protect human health and the environment. OSWER is an Agency component that is responsible for programs articulated under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA, or Superfund) of 1980, as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986; the Resource Conservation and Recovery Act (RCRA) and amendments; and other legislation and Agency directives related to the characterization, remediation, and monitoring of solid and hazardous wastes. OSWER provides policy, guidance and direction for the Agency's emergency response and waste programs. It develops guidelines for the land disposal of hazardous waste and underground storage tanks. It provides technical assistance to all levels of government to establish safe practices in waste management. It administers the Brownfields program, which supports state and local governments in redeveloping and reusing potentially contaminated sites. It also manages the Superfund program, which responds to abandoned and active hazardous waste sites and accidental oil and chemical releases. Finally, it encourages innovative technologies to address contaminated soil and groundwater.

The mission of the Office of Superfund Remediation and Technology Innovation (OSRTI) is to return contaminated areas of land associated with Superfund sites to communities for safe reuse in a healthy environment. The purpose of the OSRTI Management and Analytical Support Contract is to provide support primarily to the OSRTI program in the planning, management and oversight of the program authorized under CERCLA and SARA. The contractor will provide support to the three OSRTI divisions: the Technology Innovation and Field Services Division (TIFSD), the Assessment and Remediation Division (ARD), and the Resource Management Division (RMD).

OSRTI requires contractor assistance with planning, management, and oversight. Contract services are anticipated in the following areas: strategic planning and analysis; performance and reporting requirements; regulatory and legislative analysis; support and development of guidance documents; training, conference, and meeting support; technical analysis and research and technical information transfer and coordination; resources management and information management analysis and support; and communications, including community/public outreach and environmental justice activities analysis.

I. SCOPE OF WORK

The scope of this Task Order is for support with Mining site remediation and reuse and ecological revitalization of contaminated sites.

Work to be performed under this Task Order aligns with the following Task Areas of the contract Statement of Work: Performance Task 3: Conducting technical research and supporting transfer of technical information, Performance Task 5: Supporting communications outreach, community relations, and environmental justice activities, Performance Task 6: Providing support for training, conferences, and meetings, Performance Task 7: Maintaining Clu-In System and related technical content on EPA website.

I. PERIOD OF PERFORMANCE

The period of performance for the Base Period shall be date of award through expiration of the contract on September 2, 2018.

I. TASKS

TASK #1 Mining Site Support

Subtask 1 – Technology Transfer Tools

The Contractor shall support EPA in development and delivery of information related to innovative technologies for mining sites. Support activities include, but are not limited, to the following:

- *Quarterly mining webinar series.* The Contractor shall support EPA in planning and delivering these webinars. Support activities include, but are not limited to, identifying topics and potential presenters, scheduling and participating in planning meetings for each webinar, develop agendas and meeting notes for planning calls, highlighting actions items, scheduling deadlines, assisting with presenter presentations, advertising webinars, formatting presentations, etc. The Contractor should plan to assist with four webinars per year.
- *Conference Meetings.* The Contractor shall work with EPA to identify possible venues for communicating EPA's information. Possibilities include mining-related conferences and other important meetings. Support activities may include development of presentations and outreach materials. The Contractor shall plan to support EPA's National Hardrock Mining (HRM) Conference, which occurs every two years. The next conference is being planned for Spring 2014. The Contractor shall plan to support EPA with two HRM Conferences during the performance period for this TO. Conference support may involve development of presentations, posters, factsheets, etc. The Contractor shall plan to attend the HRM Conferences to scope out presentations and support EPA's booth and poster session.
- *Mining-Influenced Water Report.* EPA is developing a technology report on mining-influenced water treatment, to be published in early 2014. The Contractor shall support EPA in disseminating this information to the public. Support activities may include, but are not limited to, producing a training course, developing a searchable database, and transferring the information to online content.
- *Case Studies.* The Contractor shall work with EPA to develop case studies related to mining site cleanup and reuse. The Contractor shall plan to develop two case studies per year.

Subtask 2 – Website Content and Outreach

The contractor shall update and improve the content and look of EPA's cluin.org issue page on mining sites through the following:

- Maintain monthly updates to the webpage, including a Topic Spotlight area.
- Develop an annual report based on statistics gathered from traffic on the cluin.org/mining webpage.
- Expand the cleanup technology information.
- Revisit and redesign cluin.org/mining in 2015-2016.
- Publish a quarterly electronic update, similar to TINS, featuring new articles and abstracts related to mining site remediation and reuse. Include upcoming events.

For estimation purposes, the contractor should assume travel for 3 trips by 1 person, for 3 days each to location(s) in the Western part of the US. The Contractor shall plan to travel to EPA's Potomac Yard location on a quarterly basis.

DELIVERABLE	DUE DATE
Mining website Updates	By the beginning of each of month
Webinar Series Delivery	Per direction of the COR
Support Meetings	Per direction of the COR
Support Reports & Case Studies	Per direction of the COR

TASK #2 Ecological Revitalization

Subtask 1 – Expand Knowledge Base

The Contractor shall support EPA in development and delivery of information related to innovative technologies for mining sites. Support activities include, but are not limited, to the following:

- Soil Amendments*. The Contractor shall support EPA's Soil Amendment Community of Practice group. EPA leads this soil amendment dialogue of field experts from EPA and other federal agencies and academia. The Contractor shall support this group with quarterly conference calls, as needed, and development of one major project during this period of performance. The major project would be similar and complement the Soil Amendment paper published in 2007. The Contractor should also scope 100 hours of expert consultation needed for this project, and travel costs for up to three non-government members to attend to a meeting.
- Ecosystem Services*. The Contractor shall work with EPA to develop an area on the Ecotools webpage dedicated to healthy ecosystems and ecological revitalization of contaminated land. Information to include can relate to the science, ecology, economics, engineering, philosophy, and psychology as related to valuing ecosystem services.
- Conference Meetings*. The Contractor shall work with EPA to identify possible venues for communicating EPA's information. Possibilities include EPA-sponsored meetings and ecological restoration focused conferences and other important meetings.
- Case Studies*. Add new case studies on ecological revitalization. The Contractor shall plan to annually add four new case study highlights to the Ecotools webpage.

Subtask 2 – Communication & Outreach

The contractor shall update and improve the content and look of EPA's cluin.org issue page on ecological revitalization through the following:

- Maintain monthly updates to the webpage, including the Spotlight area.

- Develop an annual report based on statistics gathered from traffic on the cluin.org/ecotools webpage.
- Publish a quarterly electronic update, similar to TINS, featuring new articles and abstracts related to ecological revitalization and reuse. Include upcoming events.
- Revisit and redesign cluin.org/ecotools in 2014-2015.

DELIVERABLE	DUE DATE
EcoTools website maintenance	By the beginning of each of month
Soil Amendments group support	Per direction of the COR
Support Meetings	Per direction of the COR
Support Reports & Case Studies	Per direction of the COR
Ecosystem Services web content	Per direction of the COR

I. TERMS AND CONDITIONS

The contractor shall submit a technical/price proposal within 20 calendar days of RFO.

The following additional terms and conditions are requirements of this task order:

Develop a Quality Assurance/Quality Plan

During the period of performance for this task order, the contractor shall conduct task order monitoring, quality assurance and management activities, including preparation of the monthly progress report under each task. The contractor shall provide a written quality assurance/quality plan (QAPP) that will be used to ensure that deliverables are developed in a manner that is fully compliant with the QA procedures as indicated in the contract. The contractor should assume one QAPP for this task order.
